

CITY OF TYBEE ISLAND

RESOLUTION

WHEREAS, several projects have utilized Highway 80 between the Bull and Lazaretto Creek Bridges as scenes for these projects, and

WHEREAS, Highway 80 serves as the only means of vehicular access for our community and filming on this road prevents access to Tybee for residents, visitors and workers and furthermore creates access issues for emergency vehicles, and

WHEREAS, many other roadways that are not the only access road for communities could be used for such scenes, and

WHEREAS, the Georgia Department of Transportation (GDOT) has the authority to issue permits for the use of Highway 80 for film projects, and

WHEREAS, the City of Tybee Island fully supports the film industry, recognizes the benefits that it provides for our stakeholders and does not want an issue such as this to lead to a lack of support for the film industry amongst our citizens,

Be it resolved that I, Jason Buelterman, Mayor of the City of Tybee Island and the City Council urge the GADOT to not issue film permits on Highway 80 that will inhibit access to Tybee Island.

JASON BUELTERMAN
MAYOR
City of Tybee Island

Date: 5/14/15
