STATEMENT ON TYBEE ISLAND FIRE DEPARTMENT STATUS

In response to concerns over a city council agenda item for next week's meeting, please know that reliable public safety is our highest concern.

In order to provide the best fire safety services to Tybee, the City of Tybee Island is working with Chatham Emergency Services to provide fire department command structure while the city evaluates the options for its next fire chief.

Our current professional fire department staff is valued and appreciated and are prepared to protect our citizens.

We appreciate the community's feedback on this interim measure.
